A SPECIAL EDITION OF THE LEGACY LETTER

The KiDS Legacy Act

28 Words. Four Congresses. Zero Votes. Time for a New Bill.

THE NEWS — A 28-Word Bill Has Died — Again

Friends, we have an obituary to print. The bill that would have let every American family build a legacy of real purchasing power — purchasing power that cannot be printed — has died in the House of Representatives. **Again. That is the fourth time.**

It never lost a vote. It never got one. Four times it was introduced, and four times it was buried in the same drawer — the House Ways and Means Committee — without a hearing, without a markup, without so much as a score from the Joint Committee on Taxation. Not once in four attempts. Bills a thousand times its size get scored in a fortnight.

And here is the part that should stop every parent and grandparent cold: the bill was **twenty-eight words long.** Not 1,600 pages that no one could ever read. Twenty-eight simple words directing the IRS to stop recognizing gain or loss on precious metals. Twenty-eight words — never voted on — stand between your descendants and money that cannot be printed into oblivion.

WORDS IN THE BILL	TIMES INTRODUCED	VOTES RECEIVED	JCT SCORES
28	**4**	**0**	**0**
Not 1,600 pages	2018 • 2019 • 2021 • 2024	Stuck in Ways & Means	Never even asked

The dream survives every funeral. Four Congresses have refused it so much as a vote.

THE STAKE — What Twenty-Eight Words Would Have Done

Today the tax code treats a silver eagle like a baseball card — a “collectible” taxed at up to 28 percent. You buy your stack with money you already paid taxes on. You hold it for years. And if the dollar buys less and your metal buys the same, Washington calls that a “gain” and sends you a bill — for the crime of standing still while they printed. That is not just unfair. It is a wall between your grandchildren and an inheritance of real money.

Twenty-eight words would have torn that wall down. The establishment could not argue against it — so they made sure it was never argued at all.

THE ASK — Help Us Initiate a New Bill

The old bill number is dead. The idea is not. We are launching the push for a fresh bill with a name that says exactly what it does: **The KiDS Legacy Act — Keep Investments Diversified with Silver, and Gold too.** A new number, a new Congress, the same twenty-eight words of freedom — and this time, an army behind it they cannot ignore.

Sign the petition and be a founding name: silverscoreboard.com/kids-act

SIGN THE PETITION — LAUNCH THE KiDS Legacy Act

silverscoreboard.com/kids-act • Tell Congress to introduce the new bill. Two minutes. No cost.

AFTER YOU SIGN — Three More Ways to Help

1. Forward this letter. To two friends who care about kids and real money. Movements are built one forwarded email at a time — and Congress counts forwards, not intentions.

2. Call your representative. The Capitol switchboard is (202) 224-3121. Say: “Four Congresses have let twenty-eight words die without a vote. Please introduce and co-sponsor the KiDS Legacy Act — Keep Investments Diversified with Silver, and Gold too.” Thirty seconds, and your voice is in the record.

3. Put a coin in a child’s hand. The bill is the law we want; the conversation is the legacy we build while we fight for it. The tax code can wait a generation — your grandchildren shouldn’t have to.

REAL MONEY • REAL KIDS • REAL FUTURES
